Black stickers with gold look best printed by a print shop on die-cut sticker material (send them the separate PNG files, 600 dpi). For home inkjet printing, the light seal (sheet 4) hides small cutting errors best. Grey dashed lines are cutting guides, they are not part of the design. Logo file on hand is 320 px: fine up to Ø 50 mm, ask for a vector logo for anything larger.

Seal Ø 25 mm · 70
